Intern position

**DEAR SIR/MAAM,**

I am currently a Junior at Georgia Institute of Technology, GA majoring in Computer Science. I am looking for an opportunity to work in the field of Computer Science to gain some knowledge and skills that I can use for future. I am interested to work in your company as an intern. I have attached my resume for your reference which lists my education, skills and projects. In addition to that, I have volunteered in some college events like RealityU and OwlCon. Further I have participated in a social service camp organized in India. The camp provided locals free health check-up. The goal of the camp was to educate locals about healthy lifestyle.

I believe that I can be a perfect match for an intern position because I am familiar with the entire software development cycle which involves the requirements documents, analysis of those documents, design, implementation and testing of the software. As discussed in the resume, I have developed a Pizza Delivery website GUI which has passed through the entire software development cycle. Further, I have sufficient knowledge in database systems like creating tables, joins, views and querying through the database to get specific information. I have created a database that can be used for a construction company as it included tables like Project, Department, Employee, Employee\_Hours and many more. I am expertized in widely used programming languages like Java and C. Currently I am learning Python. I have used different IDEs like JGrasp, NetBeans, Eclipse, and IntelliJ. I am also familiar with SSMS. I am very interactive and supportive to others and am always willing to learn new skills. I have an experience of working with huge groups due to my volunteer activities. I think that these volunteer activities would help build relationships with the customers. Further, I believe that these skills would help me successfully fulfill job requirements if I get the opportunity.

You can contact me with any inquires by emailing me on [marakanarutvik@gmail.com](mailto:marakanarutvik@gmail.com) or by phone on 551-214-6934.

Looking forward to hearing from you.

**Yours Sincerely,  
RUTVIK MARAKANA.**
